Amanuel Amare

Software Engineering Student | React & Full-Stack Developer

bdu1600905@bdu.edu.et +251 921 337 037 Bahir Dar, Ethiopia Portfolio Github Linkedin

Summary

Software Engineering student at Bahir Dar University with hands-on experience building and deploying full-stack web applications using React, JavaScript, Node.js, Express, and MongoDB. Experienced in REST APIs, automated testing, performance optimization, and AI integration. Seeking software engineering internships to contribute to practical projects and grow through collaborative development.

Experience

Wude Coffee Sep 2026 – Oct 2026

Web Developer

Designed and deployed a responsive website for a local coffee business using React.

- Built a mobile-friendly interface to present the business and its offerings.
- Deployed the website using Vercel and gained practical experience with hosting and deployment workflows.

Independent Projects Jun 2026 – Sep 2026

Full-Stack Developer

Developed and deployed full-stack applications using React, Node.js, Express.js, and MongoDB.

- Built REST APIs with authentication, database integration, and media uploads.
- Wrote automated tests using Vitest, React Testing Library, and Supertest; one project test suite included 51 test files and 398 passing assertions.
- Implemented PWA features, including service-worker caching and offline access to cached content. **Github**

Personal Project May 2026 – Present

Developer Portfolio & AI Assistant

Built a responsive developer portfolio with React, Vite, and Tailwind CSS, featuring Redat, an AI assistant for exploring my projects and skills.

- Integrated Google Gemini with keyword-based routing, cached FAQ responses, and conversation history.
- Improved frontend performance, achieving Lighthouse scores of 99 on mobile and 100 on desktop.
- Added automated frontend tests using Vitest. **Github**

Entrance Key Online telegram learning Addis Ababa, Ethiopia

Fullstack Developer -Telegram Academy PDF Reader Jul 2026 – Present

- Developed a Telegram-integrated learning resource application for an online academy. Integrated Telegram Mini Apps with the application to support access to learning resources.
- Worked with backend services and access control for PDF learning materials.

Education

Bahir Dar University Bachelor of Science in Software Engineering

Software Engineering Bahir Dar, Ethiopia • Sep 2025 – Sep 2029

Skills

Frontend Development

React, JavaScript (ES6+), HTML5, CSS3, Responsive Web Design, Tailwind CSS, Vite, Zustand, React Router

Backend Development

Node.js, Express.js, MongoDB, Mongoose, REST APIs, JWT Authentication, API Integration, Email Integration

AI & Progressive Web Apps

AI API Integration, Google Gemini API, Progressive Web Apps (PWA), Service Workers, Offline Caching

Testing

Vitest, React Testing Library, Unit Testing, Integration Testing

Tools & Deployment

Git, GitHub, Postman, Vercel, Render, Railway, Yegara Hosting, Lighthouse

Certifications

ALX Software Engineering Program — Frontend Track Nov 2025

ALX africa

ALX Professional Foundations Apr 2025

ALX africa

Ethiocoder — Udacity UAE-sponsored program of Artificial Intelligence Feb 2025

UAE and Ethiopia Sponsorship

Cursor Hackathon Recognition Certificate May 2026

Cursor community

Hackathon hosting by cursor community in bahirdar university and i participate as frontend developer and could get participation recognation
